

To: All involved with CoViD measures including vaccinations and to the general public,

We understand that you may have been told to expect and disregard this notice. We encourage you to consider the contents, which are intended to inform (not to intimidate, as you may have been told).

Crime Number 6029579/21

A crime reference number has been issued by the Metropolitan Police on the basis that, on the balance of probability, a crime has been committed. Evidence from experts, whistle-blowers, eyewitnesses and victims has been, and continues to be, submitted against the recorded crime number.

This evidence is compelling and extends to over 1,000 peer reviewed scientific studies plus personal statements. This will take time to appraise.

We have urged the police to assist where necessary in closing vaccination centres as a precaution to protect the public.

On the following pages there are some links to government data (published but unpublicised) which you can use to better understand the risks from CoViD-19 injections.

Although there is clear evidence that ALL mRNA vaccines are fundamentally dangerous, it appears to be the case that **small numbers of batches are associated with extremely high injury and mortality rates**. We can supply a link to allow the checking of batch numbers. We are also receiving information about vials that have been found to contain graphene and other unauthorised and toxic substances.

Due to the impossibility of obtaining informed consent for a still experimental genetic therapy with temporary approval, we are warning vaccinators and administrators that criminal liabilities may arise. These could range between **battery*** and proceedings in connection with breaches of the Nuremberg Code regarding human experimentation.

We are working with Broad Yorkshire Law in urging you on behalf of the individuals and families affected by vaccine injury and bereavement to inform yourself, exercise your conscience, and protect patients and the public at large.

Thank you for your time. If you require assistance or have information you wish to share, please contact claims@broadyorkshirelaw.co.uk

This letter is from a large group of concerned citizens

If short of time, you may wish to simply visit www.sharewellness.co.uk/letters to click on: <https://pihlaw.co.uk/wp-content/uploads/2021/12/letterMHRA.pdf> and read page 3 "The known facts of the SARS-CoV-2 injections are as follows:"

[*Regarding **battery** as a crime: Assault and **battery** are related but distinct crimes. An assault is when a person commits an act that puts a victim in reasonable apprehension of harmful or offensive contact. **Battery**, on the other hand, is **when someone commits an act that actually inflicts harmful or offensive contact** on the victim.
