

STOP!

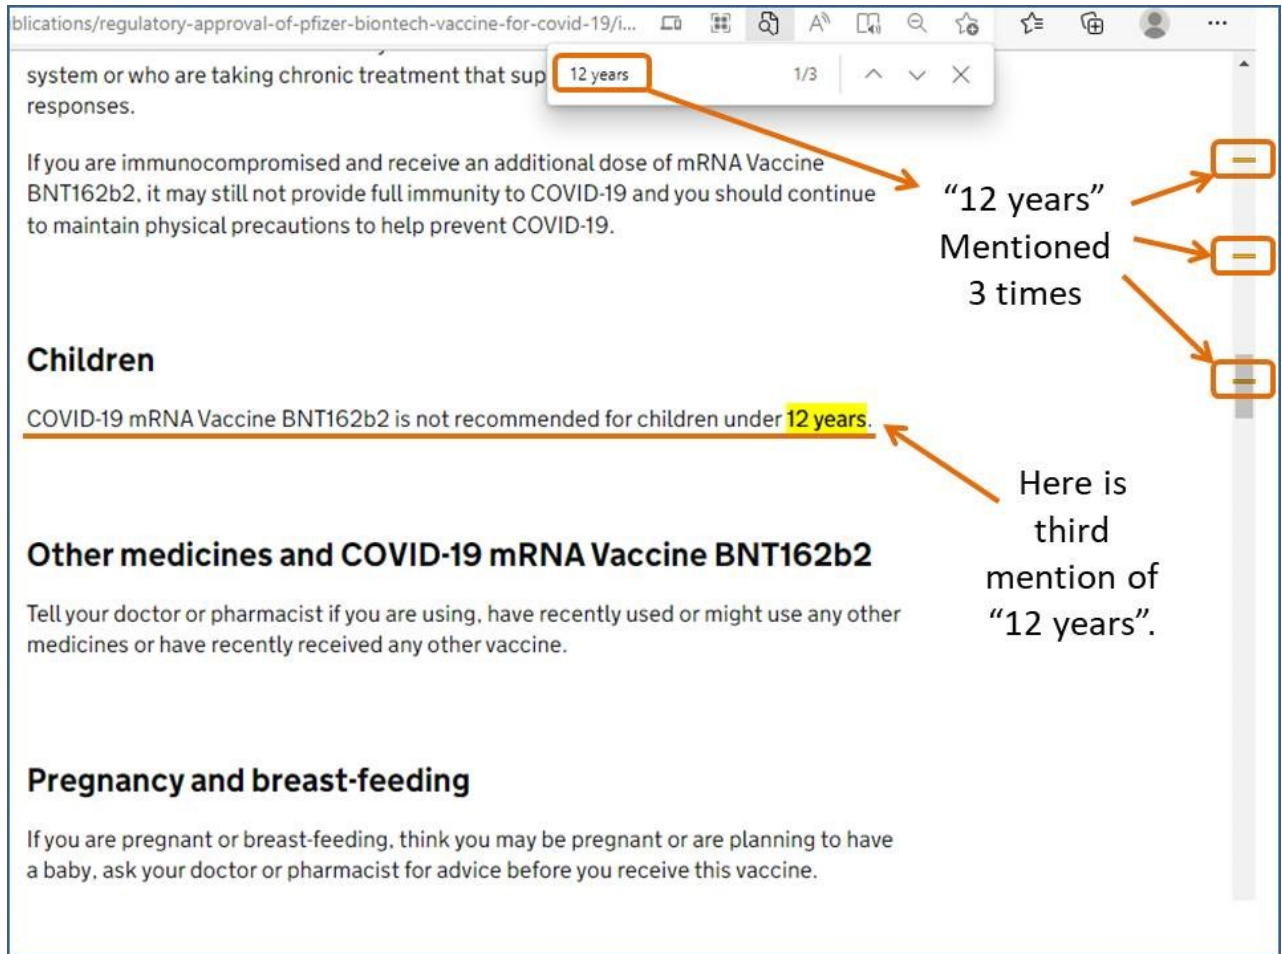

UK GOV SAYS NOT TO INJECT 5 to 11 YEAR OLDS

[Information for UK recipients on Pfizer/BioNTech COVID-19 vaccine \(Regulation 174\) - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/regulatory-approval-of-pfizer-biontech-vaccine-for-covid-19/information-for-uk-recipients-on-pfizerbiontech-covid-19-vaccine)

This document, from the UK Government, was updated as recently as 13th April 2022.

<https://www.gov.uk/government/publications/regulatory-approval-of-pfizer-biontech-vaccine-for-covid-19/information-for-uk-recipients-on-pfizerbiontech-covid-19-vaccine>

Searching for “12 years” we find this is mentioned 3 times.

Mention 1 of 3, "...temporary authorisation... ...in individuals aged 12 years of age and over."

Mention 2 of 3, "COVID-19 mRNA Vaccine BNT162b2 is given to adults and adolescents from 12 years."

Mention 3 of 3, "COVID-19 mRNA Vaccine BNT162b2 is not recommended for children under 12 years."

Clearly the Pfizer injection is not for the 5 to 11 age group.

THIS INFORMATION IS FROM THE GOVERNMENT

I have just been told that the above document applies to the adult dose that is deemed too dangerous for a child of 11 years and 11 months, but deemed safe for a child of 12 years and 1 day old. 23rd April 2022
