

Here is the headline...

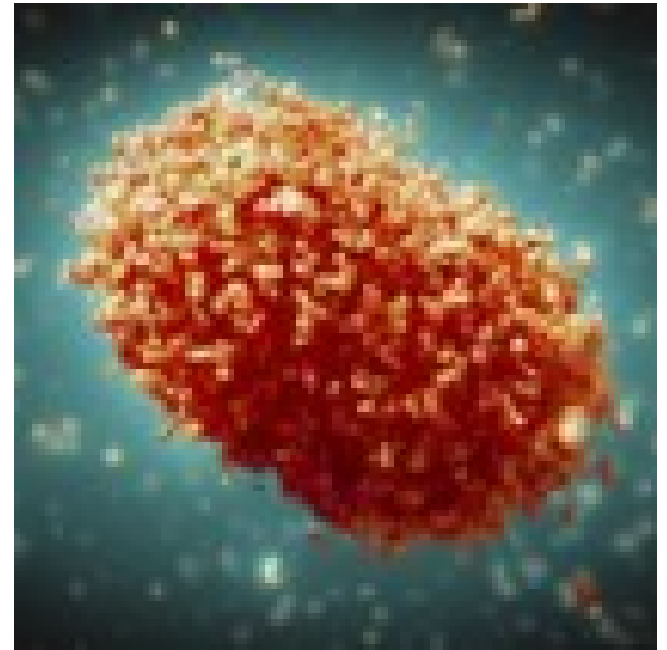

“Proof Monkeypox Planned Exercise Was Carried Out By WHO and UN in 2021!”

It is from...

www.ukcitizen.org/monkeypox-planned-exercise

Well, the W.H.O. have selected a picture to represent Monkeypox and here it is...

(a clearer version on next page)

Where do these illustrations come from?

[Home](#) / [Newsroom](#) / [Events](#) / [Detail](#) / WHO monkeypox research: What are the knowledge gaps and priority research questions?

<https://www.who.int/news-room/events/detail/2022/06/02/default-calendar/who-monkeypox-research--what-are-the-knowledge-gaps-and-priority-research-questions>

Credit for this illustration:

© Maurizio de Angelis/Science photo library Monkeypox virus, illustration.

It is claimed that, “*Monkeypox virus particles are composed of a DNA genome surrounded by a protein coat and lipid envelope.*”, yet no one has ever seen a Monkeypox virus particle, hence the need for illustrators.

[Maurizio De Angelis](#) is a very talented artist/illustrator/modeller.

Here he shares some amazing designs via linkedin as well as on his own site:

www.linkedin.com/in/maurizio-de-angelis/overlay/1596449597335/single-media-viewer

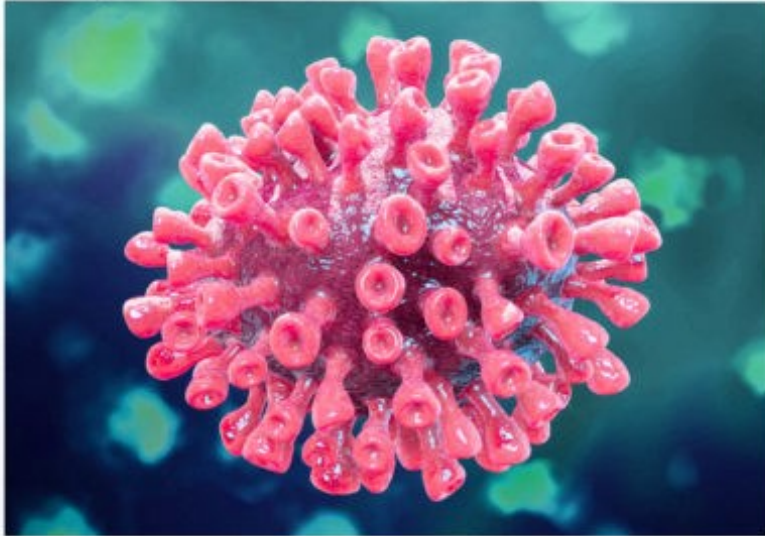

The following slides are not to, in any way, detract from his great work.

What I question is the motives of those who seek to deceive by use of 3D images that are contrary to real scientific knowledge.

Ebola virus by: [Maurizio De Angelis](#)

**As no one has ever
seen a virus,
under any
microscope,
ever,
what is the
purpose of such
illustrations?**

From: www.auriziodeangelis.com/portfolio-item/the-ebola-virus

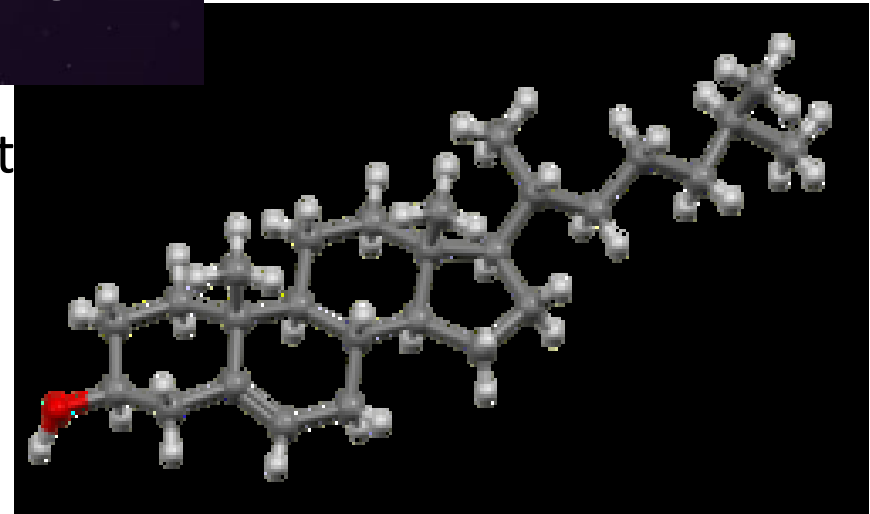

The title of this, “Inside a cholesterol molecule” tells us these ‘medical’ drawings are about creating fear.

The illustration is meant to be a lipid nanoparticle.

Maurizio de Angelis

Here is an accurate depiction of cholesterol

27 carbon atoms (dark grey)
46 hydrogen atoms (light grey)
1 oxygen atom (red)

Cholesterol does not kill. It is essential for all mammalian life.

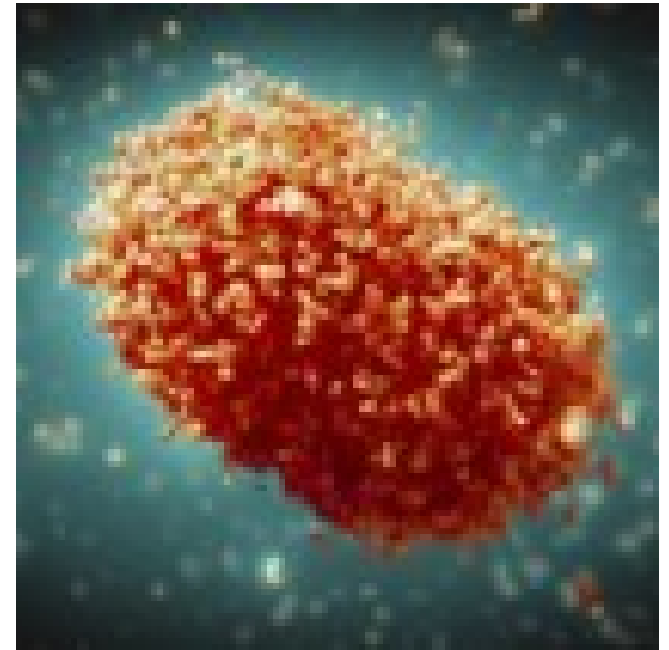

Remember...

“Proof Monkeypox Planned Exercise Was Carried Out By WHO and UN in 2021!”

It is true! See...

www.ukcitizen.org/monkeypox-planned-exercise

Will you believe there is a virus and
that virus looks something like this?

Or, will you consider that most cases of, ‘Monkeypox’, may be due to
‘vaccinations’ – See: www.sharewellness.co.uk/shingles

This is not necessarily representative of whole population:

 Do you think the COVID-19 vaccines could have anything to do with Monkeypox?

Anonymous Poll

64% It's vaccine side effects being covered up as Monkeypox

9% It is unrelated to the COVID vaccine / Other

27% It's people catching Monkeypox because they have a weakened immune system from the vaccine
