Sharing:

Do you have a need to share your experiences of the pandemic? Here is an opportunity to share and meet others who may have had similar experiences, or perhaps very different experiences.

Post-CoViD? Many now have Post Viral Syndrome, often now referred to as 'Long CoViD'. Others seem financially and/or emotionally wrecked. How can we help each other?

New beginnings: New groups formed during the pandemic. This is an opportunity to find out more about these and how these groups can work together to build a better future.

Vaccination?

- Do you believe it protected you?
- Did it harm you or anyone you know?
- Have you reported any adverse reaction(s)?
