

Scientists All Over the World Knew in 2021 That Covid-19 "Vaccines" Were Harmful

Everyone Needs to Watch This **2m 18s** Section of Video from WCH
<https://odysee.com/@WorldCouncilForHealth:3/plothe-unsafe-vaccine:4>

Truths are being censored by rich/powerful people/institutions. The BBC, ITV, C4, YouTube, national newspapers - in fact also every part of the media, has been hiding truths, like never before, since almost every honest scientist and doctor started to say, "STOP!". Because of this censorship, WCH have made the above video available on many uncensored video channels. Plus they have provided this printable transcript, such as even if censorship of the internet becomes more draconian, it is here for you to **print and share**. Please do.

Transcript from the 2m 18s section above:

Christof Plothe, DO: "There are many, many questions and actually, there are many answers already about the dangers of the mRNA technology itself. Instead of looking at what the approval study should have looked at, and this is, of course, overall death in the vaccinated versus the unvaccinated, which was never done, and in fact, what we could see in the approval papers handed in to the health official bodies was that more people actually died in the vaccinated group than in the control group. So, that was already one important endpoint of a study that was somehow missed, which should be the most relevant for anybody with common sense.

And the second one would, of course be, if we have a vaccine, how much it actually prevents you from infection. Well, we know that that was never the case. And how much it prevents you from spreading it, we know that as well. That was a myth.

So we're not left with many criteria of importance that we could look at. But one of them that we took the time to analyse was, what about efficiency? ⁽¹⁾ In fact, there have been a few publications in the last few months, but looking back, that already dated from 2021 ⁽²⁾ where the first signs were, and that was even from the official Boards, we're talking about studies from the CDC itself, we're talking about numerous papers from eminent scientists all over the world that could show that the technology created a negative efficiency. So, negative efficiency means, for those who don't know the term, you are more likely to catch the disease, in this case, if you have been injected with the genetic injection of Covid."

Where to find the above that were uncensored as of 20th August 2023:

(These may soon be censored, so please print the above words to save lives.)

The **2m 18s** is an extract from:

<https://worldcouncilforhealth.org/multimedia/c-19-vaccines> = **33m 34s video**

(1) <https://worldcouncilforhealth.org/multimedia/plothe-trozzi-c-19-vaccine-performance> = Excellent! (73mins)

(2) www.fda.gov/media/152176/download - I have disabled this link as the FDA is so very pro-vaccine. If you need to look, please go to page 7, to read is this key statement, "...there were a total of 38 deaths, 21 in the BNT162b2 group and 17 in the placebo group." **Meaning people taking the 'jab' were more likely to die.**
